AUCTION: Al is now preparing the next mail auction and it should soon appear in Timber Talk.

CHRISTMAS GIFT: Do you know someone that collects wood and is not a member of CAWMC? If so, why not consider giving them a Gift Membership for Christmas this year.

CHRISTMAS WOOD: Last month we printed information on some of the sources for your Christmas wood. This month we continued with the information Jerry has sent in.

WOOD FOR TRADE, FOR SALE, WANTED: Remember that for members this information is printed free of charge as space allows. Just send your information in to the Editor.

ARTICLES: Members of CAWMC are waiting to read your article. It can be short or long. It does not have to be typed or be fancy - just something about our hobby that you are willing to share with others. Why not set pen to paper and give it a try? We are running short of articles and always appreciate more.

WOOD: As stated last month, all donations of wood for inclusion in Timber Talk are appreciated. For the cost of mailing one package to the Editor your wood will reach many collectors.

FREE WOOD OF THE MONTH: S-O-M-E members will receive the following wood, printed in purple, that was donated by member Ron Greene. Others will receive a wood from 'the stockpile.' Thanks Ron.

CHRISTMAS WOOD: by Jerry Remick (Article continued from last issue.)

PERSONALIZED CHRISTMAS WOODS ARE A NOVEL GREETING

An issue of your own personalized round or flat Christmas woods is available inexpensively from a number of sources. (See last issue for two of them.) The woods are a novel form of Christmas greeting which will be appreciated by the receiver, even if they are not a coin collector. Many colors and designs are available from the different printers. Some collectors prefer to design their own wood. The printers usually have a sheet of designs available for you to look over when deciding what to order. Your personal reverse side can include your name and town and province/state, 1991, and perhaps a short greeting or the words 'wooden nickel.' Hanukkah designs are available. If you prefer, one of your Christmas woods can be included with your traditional Christmas cards or can be sent instead of the card. Wood can be attached to Christmas gifts and given personally to family and friends. Please place your order as early as possible. Remember that yours will not be the only order for that manufacturer to make.

Note: Due to illness two manufacturers are not producing wood this Christmas. They are Jim Deluney from Angus, Ontario and Frank Kozma from Florida.

WOOD OFFERED BY ELBEE COMPANY:

Elbee Company (Louis Berkie), 520 Broadway, P. O. Box 230, San Antonio, Texas U. S. A. 78291-0230 (Phone 512-223-4561) illustrates 20 different Christmas designs and one Hanukkah design for round woods of 1½" and also 2" in diameter on his one page brochure (see next page).

Woods of 1½" diameter with a holiday design on one side and your name and other data of the other side (maximum 75 characters), printed in red on one side and green on the other side, or both sides the same color, are available postpaid at 100 woods for \$25.00 US, 250 woods for \$32.00 US, 500 woods for \$40.00 US and 1,000 woods for \$54.50 US.

Woods of 2" diameter are postpaid at \$35.00 US for 100, \$49.00 US for 250, \$65.50 US for 500, and \$111.00 for 1000.

Remember to order your wood early.

Another manufacturer of wood (and a very good one at that) is John Lawrence of 25 N. Wayne Ave., West Haverstraw, New York, U. S. A. 10993. For the past number of years John has printed my (GB) Christmas wood and he did do Jerry's this year. We were waiting for an up to date price list and illustrations of designs, but neither Jerry nor I have received one yet. Perhaps you could either inquire directly from John, or use an old one. I am sure John will advise if there are any changes.

If any member is aware of any other manufacture of wood, Christmas or other, it would be appreciated that you could advise the Editor in order that it could be included in our inventory of manufacturers.

Also some members are good at making their own wood. Some buy the dowel rods and then cut out the blanks, sanding or not sanding them, then rubber stamping the wood. Others obtain blanks or sand off the information (or paint over) on wood and print their own message. There are some members that spend hours hand drawing / painting their wood. Some of my (GB) most prized woods are the hand painted ones.

Well one more paragraph and this page will be full. What to talk about next? Especially in the United States one can purchase a vast array of Christmas rubber stamps - to enhance your wood or to use on letters, envelopes, etc. I have four or five that I use. Well I guess that about finishes this page! See the next page for The illustrations of Elbees Christmas wood.
